

Genius Klinkenberg

Manufacturing of complex mechanical custom made machinery.

Our philosophy:

Exceeding customer expectations today is building winning partnerships tomorrow

Genius Klinkenberg is active in:

- General mechanical engineering (turn key),
- Aerospace market,
- Defence market.

We focus on the manufacturing of complete projects and (sub-) assemblies.

Based upon our high level of expertise in the field of metal working, welding and manufacturing engineering.

Programme participation:

- Machinery for: Corus, Philips, Stork, Kvaerner, ECN, Jacobs Engineering, Multin, SKET etc.
- Defence: Fennek, CV90, Boxer, PAM, PzH2000, VLS MK41.
- Aerospace: Ariane 5, A400M, Chinook, A340-500, A340-600.
