

# Hositrad Vacuum Technology

Hositrad Holland and Hositrad Deutschland combine more than 40 years experience in vacuum and cryogenic technology. We have capabilities covering all areas starting from a standard flange up to designing a complete system, manufacturing, repair and after sales service of vacuum equipment.

## Fields of activity

- Welding Laser and TIG
- Helium leak detection
- Maintenance of vacuum equipment
- Quadrupoles Mass spectrometers
- Electronic repair service

## Products

- Flanges, KF, ISO, CF
- Electrical Feedthroughs
- Edge Welded Bellows
- Glass to Metal Seals
- Manipulators
- Ferrofluid Feedthrough
- Valves
- e-Guns
- Ion Pumps
- Custom Chambers
- Thickness monitors
- Systems
- Material, Surface and Molecular Beam Sciences
- Specials
